When the application of the sensitive areas requirements would preclude an owner from making any reasonable economic use of the owner's property, then an exception may be applied for. The Hearing Examiner may grant an exception from the requirements of Chapter 16.16 of the Lake Forest Park Municipal Code only to the minimum necessary extent to allow for reasonable economic use of the applicant's property.

The Hearing Examiner may not exempt regional retention/detention surface water management facilities from stream buffer or wetland buffer requirements of Chapter 16.16 of the Lake Forest Park Municipal Code, whenever those buffers provide critical or outstanding habitat for herons, raptors or state, federal or locally designated endangered or threatened species, unless the applicant clearly establishes that the facility will protect the public health and safety and either will repair damaged natural resources or will not adversely affect such critical or outstanding habitat.

All of the following criteria must be met before a reasonable use exception may be granted. Applications must include a thorough response to the following criteria. **Applications that do not provide a unique and thorough response to these criteria will be considered incomplete:**

1. Application of the requirements of Chapter 16.16 of the Lake Forest Park Municipal Code will deny all reasonable use of the property.
2. There is no other reasonable economic use with less impact on the sensitive area.
3. The proposed development does not pose an unreasonable threat to the public health, safety, or welfare, on or off the proposed site and is consistent with the general purposes of this chapter and the comprehensive plan.
4. Any alteration is the minimum necessary to allow for reasonable economic use of the property.

**The applicant must provide the following submittal requirements.** Two paper copies and one digital copy of all materials are required.

**It is important to note: It is the responsibility of the applicant to prove that all criteria are met in order for the Hearing Examiner to consider approval of the application.**

In addition, the following must be provided:

- ☒ A **site-plan** that is accurate, legible and drawn to scale (a recent survey may be required), and provides the following:
  - ☒ The existing dimensions and lot size, proposed dimensions and lot size
